

REBOOT WITH MANISHA

Rebranding of human beings, All about enhancing who you are

Reboot means **"Installation of excellence in your system"** It is designed to encourage you towards self-transformation, help you to know and analyze your inner self, and change for the better. When a computer does not work well or slows down, the first thing we do is to turn it off and then turn it back on again. That is exactly what our brain needs at times when we overload it with unnecessary information. To unburden your brain and start afresh, sometimes all you need is to reboot it. Our mind captures things consciously, unconsciously, and subconsciously. We can decide and change our actions which are captured in our conscious mind but it is difficult to tap into the UNCONSCIOUS. So this Reboot with Manisha will help you not only to **tap into your inner mind and know your outer self to the fullest** but also make revelations for your betterment.

REBOOT WITH MANISHA WORKS AROUND:

- Working together for two years for your personal and professional excellence concluding with a ready action plan for the next 10 - 20 years.
- Tap into Conscious, subconscious & unconscious mind.
- One-on-one consultation with Dr. Manisha gaur.
